

TIPPER 2615 S TEMA Single Axle Trailer GVW 1500kg

Product price:

2,829.34 €

Product short description:

Internal dimension (cm): **250 x 153 x 30**

Capacity: **810 kg**

DMC Min: **800 kg**

DMC Max: **1350 kg**

Product description:

Car trailers with hydraulic pump TIPPER 2515 C S are designed to transport many types of loads. Designed in options: platform, with steel sides or with aluminum sides. Every trailers have wheels under the body, all sides are foldable and removable what makes fast unloading with forklift.

Tipper trailers with hydraulic jack TIPPER 2515 C S are designed to makes unloading maximum easy. Hydraulic cylinder PENTA manufactured, which lifting the loading area ensures trouble-free operation of the unit and its high efficiency. The trailer is characterised by high gross vehicle weight amounting 800-1500 kg. The measurements of the loading area is 253x 125x 30cm, what makes easier to carrying a big loads. The working surface is made from galvanized steel sheet 2.5mm thickness, which is resistant to corrosion. Wheels 195/50 R13C are low centre of gravity, they are very stable on difficult terrain, even when the trailer is full. Every sides is aluminium and they are foldable and openable. This is very comfortable because they are made from light and solid aluminum. Support wheel additionally makes easier to move trailer or connect to the car.
