

# TIPPER 2515C TEMA Single Axle Trailer GVW 1500kg

**Product price:**

**2,989.28 €**

## **Product short description:**

Internal dimension (cm): **250 x 153 x 30**

Capacity: **1062 kg**

DMC Min: **800 kg**

DMC Max: **1500 kg**

## **Product description:**

Transport car trailers with hydraulic jack TIPPER 2615S are designed to transport many types of loads. Designed in options: platform, with steel sides or with aluminum

sides. Every trailers have wheels under loading area, every sides are disassembly what let easy to load, for example forklift. Optional: winch and ramps.

Transport car trailers with hydraulic jack TIPPER 2615S are designed to makes unloading maximum easier. Telescopic set PENTA manufactured, through of that the trailer cold be lifted and it gives high productive and problem-free use. The trailer is characterised by high gross vehicle weight amounting 800-1500 kg. The dimensions of loading area are 2670x1500x300mm, what makes easier to carrying a big loads. The area is made from galvanized steel 2.5mm thickness, which is resistant to corrosion. Wheels 195/55 R10C give a stable journey through low center of gravity. Every sides could be opening or disconnecting. This is very comfortable because of they production from light and solid aluminum. Jockey wheel additionally makes easier to move trailer or connect to the car.
