

Boat trailer Lorries PP35-8825 GVW 3500 kg

Product price:

4,664.80 €

Product short description:

External dimensions (cm): **880 x 252 cm**

Max. boat length(cm): **860 cm**

Load capacity: **2674 kg**

GVW: **3500 kg**

Product description:

The PP35-8825 trailer is equipped with a parking brake and an overrun brake. Its stable construction is guaranteed by a specially designed guide with keel wheels, located along the loading surface. The whole structure is united by five transverse supports, the location of which can be adjusted in any way. In the frame, we can

adjust both the distribution of supports, sets of wheels and bottom rollers. Individual adjustment of these elements is important especially for trailer rental companies and companies engaged in transporting boats, yachts and similar equipment.

Standard equipment

2 braked axles

185R14C wheels

Overrun and parking brake

Hot-dip galvanized, corrosion-resistant trailer steel components

Function of adjusting the center of gravity of the trailer to the load (possible adjustment of the axle position)

Support wheel

Manual winch

Adjustable winch post

Rear LED lights - tilting to the side

Belt holders

Side roller supports: double (2 pieces) and quadruple (4 pieces)

Bottom supports: support wheels, cradle with rollers and keel wheels

Maximum cargo length: 8,6m
