

Neptun GN148 N7-263 2 pro Twin axle light trailer GVW 750 kg

Product price:

1,085.09 €

Product short description:

Internal dimensions (cm): **263 x 129 x 45**

Capacity: **495kg**

Gross weight: **750kg**

Product description:

A trailer from the **PRO** series, characterised by high structural strength: fully welded frame and drawbar, cold-formed U-section frame stringers and its transverse beams.

The advantage of this series are the profiled sides high 45 cm, made of high-quality galvanised sheet metal. Specially profiled for high rigidity and impact resistance. The front and rear boards are openable, which is particularly useful for transporting long

loads. All sides (front, rear and sides) are fully removable, giving you a flat platform for carrying larger loads.

The PRO series trailers have a tilting load bed, which makes unloading the goods much easier.

Lightweight trailer, without inspections, for category B.

AVAILABLE AT OUR BRANCHES IN MODRZYCA AND DOLNA GRUPA.
