

Neptun GN182 N7-263 prr resor Single-axle lightweight trailer GVW 750 kg

Product price:

894.69 €

Product short description:

Internal dimension (cm): **263 x 129 x 45**

Load Capacity: **533 kg**

GVW Max: **750 kg**

Product description:

A trailer from the PRO series, characterised by high structural strength: fully welded frame and drawbar, cold-formed U-section frame stringers and its transverse beams.

The advantage of this series are the profiled sides, as high as 45 cm, made of high-quality galvanised sheet metal. Specially profiled for high rigidity and impact resistance. The front and rear boards are openable, which is particularly useful for

transporting long loads. All sides (front, rear and sides) are fully removable, giving you a flat platform for carrying larger loads.

The PRO series trailers have a tilting load bed, which makes it much easier to unpack the load.

Lightweight trailer, without inspections, for category B.

OFFER AVAILABLE AT OUR BRANCHES IN MODRZYCA AND DOLNA GRUPA.
