## **Product description:**

A trailer for transporting construction equipment (mini-excavators, mini-rollers). Very durable, with adjustable ramps and lots of practical handles and fasteners. Recommended to companies from the construction and road construction industries. Additionally, it can be equipped with a special adjustable "stork" type drawbar which enables the trailer to be combined with various types of cars (delivery trucks, trucks). A practical trailer for people who want to safely, quickly and easily transport their equipment from place to place, even in difficult terrain conditions.

Standard equipment:

Overrun device 3000Kg KNOTT

Braked axle 2 x 1500kg KNOTT

Galvanized

Plywood, anti-slip floor

Wheels 175/70 R14C

8 handles

Jockey wheel

Ramps
